#### **Hattie Engel, birth doula**

[www.heartsandhandsdoula.com](http://www.heartsandhandsdoula.com)

I am boutique style doula. I only take on one client a month so I can be absolutely sure I am able to independently attend to you. (although I do have back ups available just in case). When you hire me you are also hiring a relationship. I invest time with you before the baby comes to really get to know what you want for your birth, so that you can be as comfortable and relaxed as possible.

A doula never replaces your partner, instead we add to the birth team, allowing your partner to be empowered to support you as fully as feels comfortable for the both of you. If you don't have a birth partner, I will fully step up and be that person for you!.

I offer TENS units for rental to effectively provide pain control, and make you more comfortable during the late stages of pregnancy and throughout labor.

## PMC MEMBER OWNED BUSINESSES

Winter 2011

As a birth doula I bring no agenda to your birth but your own. I will initially help you create a vision of your ideal birth, answering any questions that you may have along the way. Pregnancy is a time of excitement but also sometimes fears pop up, I will help you deal with them all! During the birth I will help with positioning, providing massage and targeted accupressure, constant physical and emotional support.

*Hattie is a PMC member.*
